

Local and Global Debtors

Last Modified on 05/10/2026 4:54 pm AEST

The instructions in this article relate to **Search Local Debtors** and **Search Global Debtors**. The icon may be located on your [StrataMax Desktop](#) or found using the [StrataMax Search](#).

Search Local Debtors and **Search Global Debtors** are used to report on debtor details from the **Roll** and **Second Debtors**, including lot and unit numbers and debtor records in the main group and sub-groups. **Search Local Debtors** reports on the selected building, while **Search Global Debtors** includes the **Current Building** field to report across your portfolio.

These searches can assist with everyday tasks such as reviewing owner and debtor details, checking debtor settings, and preparing debtor reports for a single building or across multiple buildings. Search results can be exported to Excel, and useful search setups can be saved for regular use.

Searches

Many [search screens](#) use the same layout and tabs, even though each one reports on a different area of data. Once you understand how the search screen works, the same process can be applied across a range of searches.

Search Local Debtors and Global Debtors | Security

To access **Search Local Debtors** and **Search Global Debtors**, the user must have permission set to *Allow* for *Local Debtors* and *Global Debtors* under the *Menu* category in [Security Setup](#).

Search Local Debtors and Global Debtors | What it can report on

Search Local Debtors and **Search Global Debtors** return debtor information from the **Roll** and **Second Debtors**. Depending on the fields selected, the search can report on details such as reference name, given names, surname, unit number, lot number, current building, current balance, phone, email and debtor-related settings.

This is useful when you need to review debtor records, check settings that affect debtor processing, or prepare debtor lists for follow-up and reporting. Use **Search Local Debtors** when you only need the selected building, and use **Search Global Debtors** when you need to review debtor records across your

portfolio.
