

Income Tax

Last Modified on 04/09/2024 12:28 pm AEST

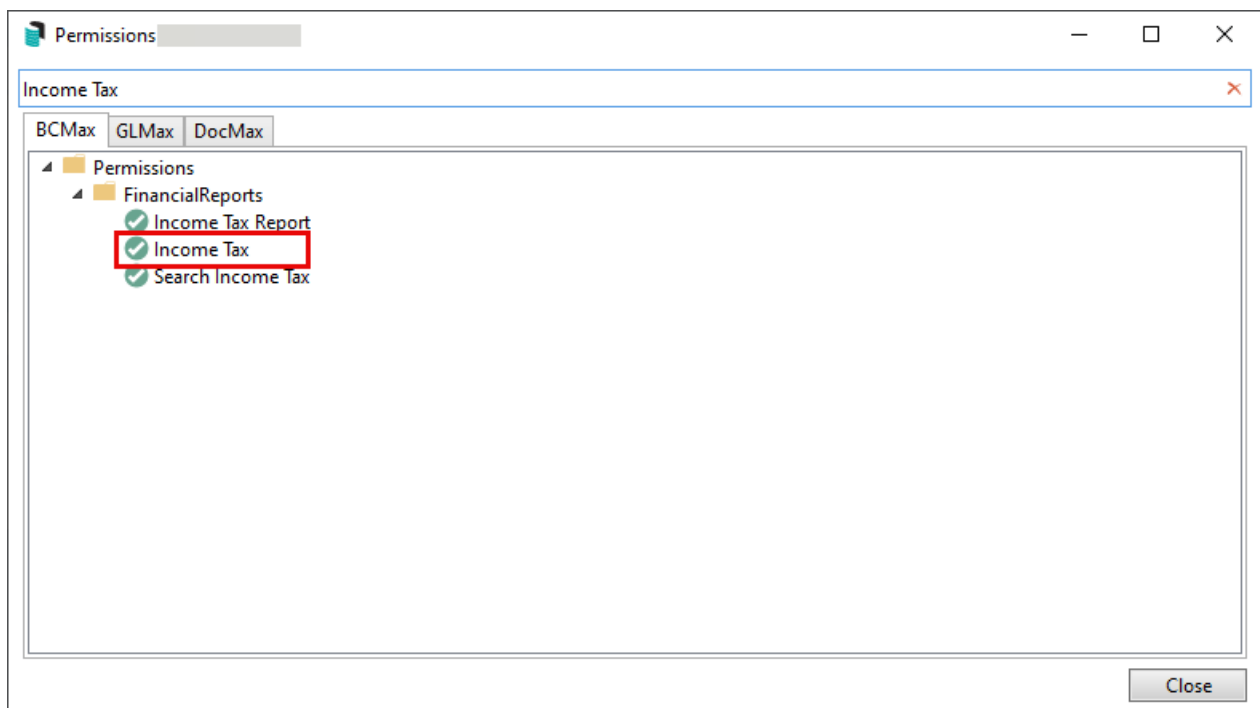

The instructions in this article relate to **Income Tax**. The icon may be located on your [StrataMax Desktop](#) or found using the [StrataMax Search](#).

Income Tax will assist with setup and reporting of details required to assist with lodgement of the income tax return. The information will be available to be sent as a report or extracted to Excel for a Tax Agent / Accountant to assist with lodgement to the ATO.

Please note that these instructions relate to version 5.6.113 or higher. Instructions for StrataMax version 5.6.112 or below please refer to [Tax Year Report](#) or [Tax Year Financial Statements](#).

Income Tax | Security

To access the **Income Tax**, the user must have permission set to 'Allow' for **Income Tax** under the 'FinancialReports' category in [Security Setup](#).

Income Tax Setup

Income Tax lodgement requires specific details, for transactions in the July - June tax year, to be totalled and then provided to the authorised lodging person. This information is used to correctly calculate the income tax which can then be lodged and payment processed or refund received.

StrataMax does not assist with the calculation of the amounts for lodgement, but provides the tools to assist with reporting this information.

Correct setup of the specific accounts is required and can be completed in [Account Maintenance](#). The accounts required for reporting will be determined by the transactions that are to be applied to the particular account and your accountant is often the most suitable person to assist with identifying these accounts and ensuring the setup is correct.

The areas that are provided for reporting on the Income Tax Report and Search are noted below:

- Income
- Non-Mutual Income
- Fully Claimable Expenses
- Partially Claimable Expenses
- PAYG Instalments (as reported on the BAS)

The [Account Maintenance](#) options available to assist with assigning to the correct tax reporting area:

- Income Accounts - can be set as Non Mutual Income and can also be set as Non Claimable Income which will exclude being totalled in the Income.
- Expense Accounts - can set be set with an Income Tax Expense Category which may be fully or partially claimable.

The screenshot shows the 'Account Maintenance' window for account '12900 BUILDING REPAIRS'. The 'Income Tax Expense Category' dropdown is highlighted with a red box, showing options 'Partly Claimable' and 'Fully Claimable'. Other fields include 'Non Mutual Income' and 'Non Claimable Income' checkboxes, and a 'Restrict Access' checkbox.

Building Information

- Set the *Tax File Number* (TFN) as this is **required** for completion of the Income Tax for the selected Building / Plan.

TIP: Locate where TFN's are missing using [Search Buildings](#) to select all of the portfolio and add display column TFN then restrict to TFN is empty. This will show all Buildings that will need an update for the TFN field to be

completed in **Building Information**.

The screenshot shows the 'Buildings' search interface. At the top, there are buttons for 'Refresh', 'Export', and 'Advanced'. Below these is a 'Restrict To' section with a table of filters:

	Field	Condition	Value
Columns	Building Name	starts with	
Sort Order	TFN	is empty	
Advanced	Account Manager	is equal to	

Below the filters, it says '4 records displayed'. A table of results is shown below that:

Building Number	Building Name	TFN	ABN	Status	Account Manager

Income Tax Status

Income tax is designed to report information from each Building / Plan, to use for lodgement of the annual income tax return to the ATO. Once the reporting period has been completed and the information reviewed, this can be reported using **Income Tax Report** for a combined PDF Report or can be exported into Excel, using Search BAS, which may be easier to use for the person completing the lodgement.

1. Search or select **Income Tax**.
2. Select from options:
 - Current building: ensures only the Income Tax for the current selected building (noted at the top of the window) are displayed.
 - My Buildings (Account Manager): to select an individual Account Manager name and the properties they are listed for.
 - Management Office: select from drop down
 - All Buildings: to tag individual or a subset of buildings.
3. Select to:
 - Show all - all buildings based on above selection
 - Show due only - buildings that are due for review for the income tax year completed but not yet prepared.
4. Select 'Prepare to 30/06/**
5. Send **Income Tax Report** to accountant / tax agent or use **Search Income Tax** for alternative Excel option.

Income Tax Amendments

Amendments to the reported totals in the Income Tax, can be completed by:

- Amending accounts in Account Maintenance.
- By excluding specific transactions on an individual Building / Plan.
- Adding new transactions on an individual Building / Plan, dated in the reporting period.

Global Amendments

Account Maintenance is used to update the reporting for Income Tax with the specific fields as outlined below. These should be reviewed and may be advised to be adjusted by an accountant or tax agent. These steps should also be used when there have been multiple individual transactions updated across the portfolio.

1. From either the Master Chart Building or the local building, search or select **Account Maintenance**.
2. From the Account Maintenance window, use the *Search* field from the Account code list to enter either the description or number of the required account code. Click the pencil icon to edit the account setup. Note the number cannot be changed.
3. Review the tax fields and updated accordingly:
 - Non-Mutual Income
 - Non Claimable Income
 - Partly Claimable Expense
 - Fully Claimable Expense
4. *Apply Changes to Master Chart & Buildings* will be ticked by default allowing this to globally update all Buildings. This setting should be considered and de-selected if the change should not affect the Master Chart or other buildings.

5. Click *Save*, then *Close Account Maintenance*.
6. *Search or select Income Tax*
7. *Select either*
 - 'Delete and prepare to 30/06/20**' if the Income Tax was already prepared prior to the above amendments, or
 - 'Prepare to 30/06/20**' if the period has not be prepared already.
8. Send **Income Tax Report** to accountant / tax agent or use **Search Income Tax** for alternative Excel option.

Prepare to 30/06/2024

Delete and prepare to 30/06/2024

Individual Amendments

Adding or removing specific transactions can be completed to an individual Building. These updates can then be applied and reports issued. If adjustments are made to multiple Buildings, use the Global Amendment instructions to update the complete portfolio if required.

Add Specific Transactions to Income Tax Reporting

After the reporting period is complete, transactions may still be added, updated and re-reported. This may occur when information is not always available prior to the end of the Tax Year. i.e. Interest amounts to be included.

Add the required transactions / journals / adjustments to the select Building/s, ensure that the date is within the reporting period - i.e. Interest Income (Non-Mutual) for 30/06/20**.

Example

Journal Preparation Set - THE ACCRUAL AVENUE 96322							
Journal Set				Totals:		Balance: 0.00	
Date:	Reason:	Frequency:	Auto Reverse		On Hold		+ Add
30/06/2024	Interest to 30.06.24	Once Only					
Account	DR	CR	Invoice Code	Fund	Details	Explanation	
> 001 2070 INTEREST ON INVESTMENTS		55.99		SINKING FUND	Interest to 30.06.24	✗	
> 002 01401 INVESTMENT A/C SINKING FUND	55.99			SINKING FUND	Interest to 30.06.24	✗	

1. Search or select **Income Tax**, then choose the required display settings.
2. Locate the Building / Plan for adjustment.
3. Select the appropriate action:
 - **Edit Latest Income Tax Period, selecting 'Yes' to update with any new transactions if there have been changes.**
 - Prepare a New Income Tax Period, if this has not yet been done for the current period.
4. Select the blue info icon in the top summary section to show the related accounts and totals.
5. Select the Account where the adjustment was applied (either Income or Non-Mutual Income in example above) to confirm is now correct.
6. Select Finalise once all amounts are as expected.

NOTE: Option for Print if is available if only the selected Building is report is required.

Delete a Specific Income Tax Report

If transactions are excluded by mistake, the income tax may be deleted and then re-prepared to re-set all the totals and transactions for the reporting period.

1. Search or select **Income Tax**, then choose the required display settings. Locate the Building / Plan for adjustment.
 - Select the appropriate action (either option will offer the delete:
 - View latest Income Tax Period (a view of the last completed period)
 - Edit Latest Income Tax Period, selecting Yes to update with any new transactions if there have been changes.
2. Check the correct Building and period are displayed, then select 'Delete', click 'Yes' to 'Are you sure you want to delete this Income Tax Report' which will close and return to the Income Tax Status screen.
3. Select 'Prepare a New Income Tax Period' to refresh all the details and include all transactions for the period.
4. Review and finalise to complete.
