Last Modified on 03/10/2024 9:51 am AEST

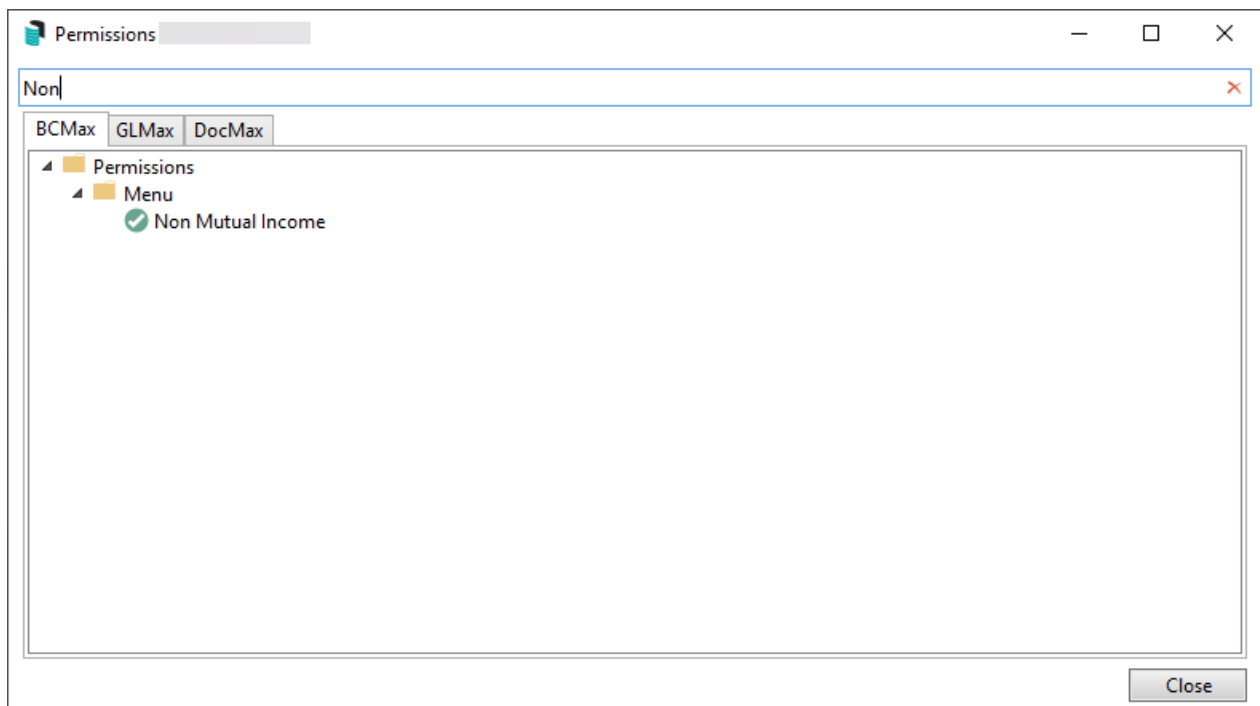

The instructions in this article relate to **Non-Mutual Income** search. The icon may be located on your [StrataMax Desktop](#) or found using the [StrataMax Search](#).

The *Non-Mutual Income* search reports transactions for a specific date range (usually the July-June tax year) where the account code is setup as Non-Mutual in **Account Maintenance**. Searches can be amended and saved for continuous use, plus the information can be exported to Excel. This search is for the selected Building / Plan only.

Non-mutual Income is any income that isn't received from Owners, (mutual income) such as interest on investment accounts / term deposits, lease of common property - i.e. telecommunications tower etc. This setup should be completed in conjunction with the advice of a registered tax agent / accountant. If a Building is registered for PAYG Instalment Tax in **Building Information**, but not GST, the report will be an Income Activity Statement (not a Business Activity Statement).
