

Creditor Invoice Refresh

Last Modified on 05/03/2026 8:17 am AEST

This page contains information relating to the first stage of enhancements to Creditor Invoices within both StrataMax and DocMax planned for release during 2026. These enhancements will provide a refreshed interface along with new methods to save creditor invoices in a more efficient manner while maintaining validation checks.

The refreshed Creditor Invoice will be released as a *Preview Feature* meaning the legacy Creditor Invoice interface can still be accessed if required.

Refreshed Creditor Invoice Interface

The screenshot displays the 'Creditor Invoice Work Queue - Craigs Villa Keep 654' window. It features a top navigation bar with 'Payment Authority' and 'Open' buttons. The main area is divided into several sections:

- Header Information:** Building (Craigs Villa Keep 654), Creditor (08200006 DIY Pool Cleaning), Posting Date (30/04/2025), Current (4/25 to 3/26, Month: 4/25), Bank Balance (12,000.00), Unpaid Invoices (790.00), Invoice Number (1234567890), and EFT Reference.
- Account Details:** Account (13905 GARDEN & GROUNDS), Fund (ADMINISTRATIVE FUND), YTD Actual (120.00), Budget (1,000.00), Amount (330.00), Invoice type (Invoice), and Details (Monthly Pool Service).
- More Info:** A list of checkboxes including 'OK to Pay' (checked), 'Add Purchase To Asset Register', 'Bill to Owner', and 'Pro Rata'.
- Invoice Preview:** A preview of the invoice document for 'DIY Pool Cleaning' with invoice number 1234567890. It includes a table with columns for Quantity, Description, Unit Price, and Total. The table shows one line item for 'Monthly Pool Service GST' with a unit price of 289.38 and a total of 289.38. The total amount is 289.38.

At the bottom, there are buttons for 'Skip Document', 'Save and Pay', 'Save', 'Clear', and 'Close', along with a page indicator showing '1 of 1' and a zoom level of '44%'.

The redesigned Creditor Invoice interface brings all key functions together on a single screen, reducing the need to navigate through multiple clicks &/or menus. Some of the additional changes to improve the process include:

- Ability to save the creditor invoice to the old financial year.
- Earlier identification of a possible duplicate invoice, which will complete the check as soon as the invoice number is entered and again when saved.
- New Invoice duplication security permission (Allow Creation of Invoices with Duplicate Numbers) to control which users are allowed / not allowed to override duplicate invoice checks.

Creditor Invoice - Craigs Street Keep 6313

Building: Craigs Street Keep 6313

Creditor: 08200005 BYO Mowing Posting Date: 17/04/2025 Current: 4/25 to 3/26, Month: 4/25

ABN: Bank Balance: 20,000.00

Pay by: EFT - BSB: 012-009 A/C: 51515 Unpaid Invoices: 500.00

Invoice Number: 123 Duplicate Allow Duplicate ADMINISTRATIVE FUN 19,500.00

Work Order: EFT Reference: Total: 0.00 Add

- When entering invoices from the work queue, there is now the ability to skip a document which will leave the document in the work queue however the next document will load for entry.
- Work Order count will be included in the Creditor account list to help select the appropriate Creditor & Work Order. The selection of a work order will use the search interface, adding the ability to locate the work order based on all fields.

Bulk Creation of Creditor Invoices from a Work Queue

Invoices entered into a DocMax Work Queue, that are complete and have no validation issues, can be saved in bulk with a single action. Any invoices requiring further details will need to be processed individually, with the option to easily skip any invoice if needed.

Creditor Invoice Work Queues

Work Queue: **Creditor Invoices** Documents in Queue: 6

Start Queue Start processing the work queue manually starting with the first document in the queue. Invoices will be displayed for review.

Auto Create All Invoices will be created for all documents in the work queue where all required data is available. Invoices will not be displayed.

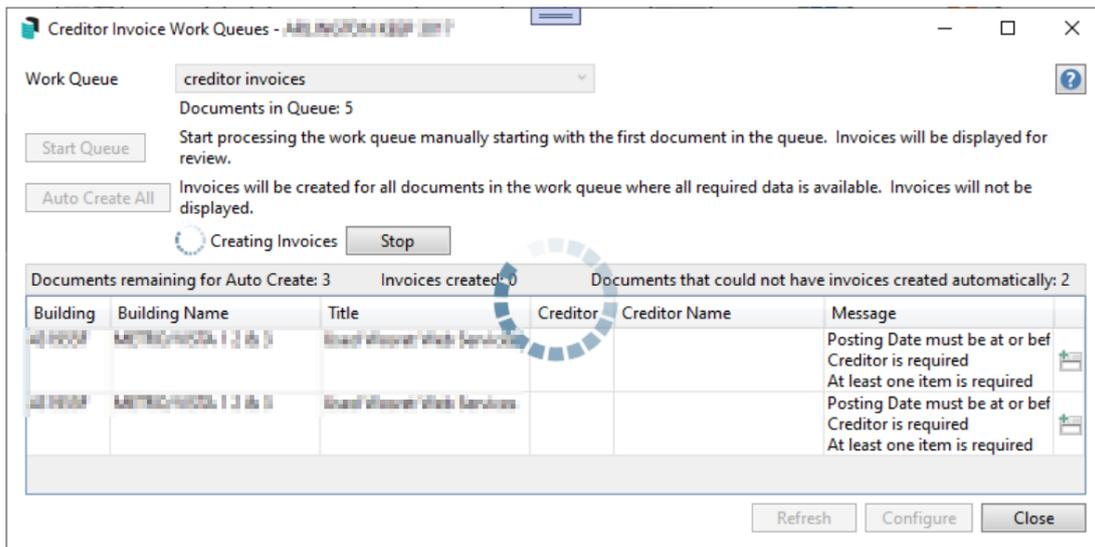

Refresh **Configure** **Close**

Creation of Creditor Invoices Direct from DocMax

Some offices prefer to complete data entry and validation directly within the DocMax Work Queue. Where this process is followed, you now have the ability to save creditor invoices directly from DocMax, while still maintaining the same validation and checks using the Creditor Invoice interface.

Click on Create Invoice to open the Creditor Invoice interface; any data populated in DocMax would be populated in the creditor invoice interface.
